Dr. Carrie Becker, Executive Director • CBecker@worldneurology.org • 802-558-1640

The World Neurology Foundation is committed to helping improve African health by enhancing educational programs for neurologic caregivers. The 102 Neurology Tool Kits contributed by the Foundation over the past year have helped improve care throughout needy regions in 12 different countries. *Each kit includes a stethoscope, reflex hammer, tuning fork, scissors, NIH Stroke Scale, eye chart, measuring tape, and flashlight, all in a durable belted bag.*

".....Thanks to the Kit I have been able to better screen for neuropathies in our HIV and Diabetic patients as well as better examine our stroke patients. Using this kit has been a whole new experience in neurology and has reinforced my interest in this discipline and commitment to better quality of care to our patients."

Dr. Samuel Amye Angwafor.
Batibu Health District, Cameroon

"I'm so happy. (This) is a great action for neurologists, particularly in Africa where we have insufficient medical materials."

Dr. Anselm Dabilgou, Burkina Faso

TOOL KITS FOR AFRICA Project

World
Neurology
Foundation

We invite you to join us in this effort by sponsoring a tool kit for a donation of \$250. We will include your contact information if you choose in order that you can receive feedback from the care provider you have so generously helped.

"I thank you a lot for this precious gift and I hope that we'll proceed with this collaboration between you, and us African's physicians".

Dr. Tsila E, Congo

"These instruments will make our learning and practice of medicine and neurology more complete. I am very grateful and we will like to be beneficiaries of similar future gestures. Thank very much!"

Dr Fonsah Julius Yundze, Cameroon

"Thank you very much for the tools ... that I have received from you. This will allow me to refine my neurological examination for a proper diagnosis in order to provide quality care to our patients."

Dr Faustin Yepnjo Njionda
Cheikh Anta Diop University, Dakar-Senegal

Our Board Members combine extensive knowledge of neurological disorders with worldwide associations and proven leadership to accomplish the WNFO mission.
